Project name	Smart Solutions for Railway

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and the user's account 'Kavinilavan N's Account'. Below this, the main dashboard area is titled 'Dashboard' and includes options to 'Edit dashboard', 'Upgrade account', and 'Create resource'. The central section, 'For you', features a horizontal carousel of service tiles. These include: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'IBM Watson Internet of Things Platform' (Communicate with connected devices, monitor and analyze data in real time, connect your own IoT apps and add Watson AI to the solution), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), and 'Incorporate DevOps into your process' (Shorten releases, improve reliability, and stay ahead of the competition with IBM DevOps). Each tile has a 'Getting started' or 'Recommended' button and a time estimate. Below the carousel, there are four more sections: 'News' (Introducing Badges to IBM Cloud Certification, Announcing IBM SevOne Network Performance Management Version 6.4), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'. The bottom of the image shows a Windows taskbar with several open documents: 'WEB APPLICATION...docx', 'WEB APPLICATION...pdf', 'PYTHON CODE.docx', 'PYTHON CODE.pdf', 'Project Objectives...pdf', and 'Develop the web...docx', along with a 'Show all' button.
